

HLTAID015 Provide advanced resuscitation and oxygen therapy

by Safety Corp Pty Ltd, Registered Training Organisation (RTO) 91694

This nationally recognised training is offered by, or on behalf of Safety Corp Pty Ltd (RTO 91694). Training, assessment, and related educational and support services may be provided by an authorised third party training provider.

Safety Corp Pty Ltd is responsible for the quality of the training and assessment in compliance with government legislation, and for the issuance of certificates, including where services are provided by an authorised third party provider.

Overview

The course we deliver is highly practical and focused on developing skills you can put into practice in real emergency scenarios. It provides the skills and knowledge required to use specialised equipment in the provision of resuscitation and oxygen therapy in line with the Australian Resuscitation Council (ARC) guidelines. It applies to persons who may be required to use specialised equipment to provide resuscitation or oxygen therapy in a range of complex situations, including community and workplace settings.

If you are unsure whether the training product is right for you, please seek advice from the training provider.

- Suctioning in the event of regurgitation or vomiting
- Managing a casualty with life-threatening bleeding requiring use of tourniquets and haemostatic dressings
- Assessing vital signs respirations, pulse and oxygen saturation
- Maintenance of resuscitation equipment

Unit of Competency

On successful completion of this course, students will be eligible for a Statement of Attainment (SOA) for:

- HLTAID009 Provide cardiopulmonary resuscitation
- HLTAID015 Provide advanced resuscitation and oxygen therapy

An SOA will be issued by Safety Corp Pty Ltd within 30 days of completion of the course, provided all USI, fees and charges have been finalised.

The units of competency listed above are current on the National Register of VET at the time of publication. To view all the training package requirements of these units go to www.training.gov.au and search using the unit code.

Pre-Requisites

Participants must hold a current certificate for HLTAID011 Provide First Aid.

Course Requirements

Successful completion of this course requires participants to have the physical ability to respond to an emergency situation and Provide advanced resuscitation and oxygen therapy to a casualty. This includes the requirement for all participants to perform at least 2 minutes of uninterrupted CPR on an adult resuscitation manikin placed on the floor.

Foundation skills are the underpinning communication skills required for participation in the workplace, the community and in adult education and training.

Learning – to learn to provide first aid response in remote situations.

Reading – to administer medication to casualty.

Writing – to complete documentation such as reports/risk assessments.

Oral communication – to call the ambulance and provide a handover.

Numeracy – to count the number of compressions and breaths.

All training and assessment materials and equipment will be supplied throughout the course. Students will need to bring a blue or black pen and wear comfortable, casual clothing.

If you are concerned about any of these requirements please contact your training provider prior to enrolling into the course.

Delivery Modes

1 day classroom training and assessment.

Training and assessment can be adjusted to account for specific workplace requirements and the existing skills and knowledge of the students.

Locations

Training and assessment may be held at a training facility or on a client's site. Please contact your training provider or Safety Corp for more information.
